

**Bydgoszcz University of Science and Technology is proud to invite scientists to participate  
in:**

***1st International Conference „Zero Waste Technologies”***

The conference will be held on June 9-10 2022, in a stationary manner. The aim of this event is to create a platform for the exchange of knowledge and experience of scientists from various fields who share the topic of non-waste technologies.

The conference is interdisciplinary, however, during registration, please indicate one of the sessions to which the research topic qualifies:

- Circular economy
- Sustainable animal production technology
- Modern methods of waste treatment
- Waste as an energy resource
- Management of waste biomass
- Clean, low-waste and waste-free technologies
- Sustainable design
- Management of industrial waste
- Intelligent solutions supporting waste-free technologies
- Innovative energy solutions in non-waste technologies
- Managing an innovative project in the field of non-waste technologies

As part of the conference, it is possible to present the works both orally and in the form of a poster session. Participants who apply for the conference will be obliged to send abstracts in English beforehand, which will be published in the form of an abstract book. In addition, the participants of our conference will have the opportunity to publish an article from the presented research in the journals proposed by the organizers.

**Obligatory dates:**

1. Deadline for submitting applications and abstracts 08.05.2022
2. Payment deadline May 20, 2022

Sending the application form is tantamount to expressing the will to participate in the Conference and accepting the Regulations of the Conference. Only active participation in the conference is possible.
